WORK EXPERIENCE

Intertec.io

Munich, Germany (Hybrid)

Senior Technical Product Manager

Nov 2025 - Present

SimonsVoss product delivery (Allegion, Fortune 500): **Leading two .NET teams (11 engineers) as central PM**, owning the API and the multi-tenancy model.

- Led development of the Super Admin Panel and shipped 5 features across both teams, with 10 more in the upcoming release pipeline.
- Built and rolled out a service desk for client feedback intake and triage.
- Primary product and technical liaison between SimonsVoss and Intertec, reporting to the client's Head of Software Engineering.
- Own backlog refinement and prioritization across multiple product streams. Assess technical feasibility around performance, security, and scalability.

Pre-sales and strategy partnership: **Partnering with Intertec's CTO and CEO** on new business and product discovery.

- Take part in client and sales meetings, then translate business objectives into roadmaps, user stories, and technical specs.
- Author PRDs and proof-of-concept documents for pre-sales engagements and product discovery.

Arcadia

Washington DC, USA (Remote)

Senior R&D Program Manager

Mar 2023 - Nov 2025

Engineering and InfoSec leadership: **Owned a \$3M AWS budget, SOC 2 compliance, and platform reliability** while reporting to the SVP of Engineering and the Senior Director of Information Security.

- Led a team of 10 DevOps engineers as Product/Project Manager, owning sprint planning and execution.
- Cut AWS spend through workload-level cost measures without performance degradation.
- Owned the SOC 2 compliance program covering security and regulatory requirements.
- Owned lifecycle management of services and applications across the company.

Product and R&D modernization: **Coordinated innovation across 10 product directors and their 20 product teams** (150+ engineers spanning Python, DevOps, PHP, and InfoSec), reporting to the VP of Product.

- Ran the internal evaluation of AI, automation, cloud, and DevOps tools, then led the modernization that followed.
- Led company-wide application rationalization, cloud modernization, and vendor consolidation through a period of restructuring.
- Built and ran the multi-year tech roadmap with engineering and product leadership.

TSD Digital

Herefordshire, United Kingdom (Remote)

Product Program Management Consultant

Jul 2024 - Sep 2025

Consulting engagement, concurrent with Arcadia role.

Multi-client product delivery: **Oversaw 20 active projects in parallel** for clients including Brightwells, Bond Jewellery, and Joe Davies.

- Led the Bond Jewellery program, which won the MVP Award at Umbraco Conference 2025.
- Primary client contact across the portfolio.
- Defined product requirements, user stories, and acceptance criteria with cross-functional teams.
- Partnered with the Head of Engineering and CEO on roadmap, prioritization, and product strategy.

Pre-sales and portfolio budget discipline: **Ran budgets across parallel projects** while joining pre-sales calls for incoming engagements.

- Took part in pre-sales meetings to scope incoming engagements with the leadership team.
- Managed budgets and timelines across the portfolio, delivering 10% cost savings.
- Ran roadmap execution for e-commerce platforms and CMS solutions in parallel.

VOX

Brussels, Belgium

Managing Director

Jun 2022 - Feb 2023

Scaled the delivery org: **Grew engineering 40% (25 to 35 across 6 teams)**, shipping 17 projects grossing €2M+.

- Led 35 professionals across 6 teams (2 .NET, 2 PHP, 1 Front-End, 1 Managed Services).
- Delivered 17 projects for clients including Erasmus+, PEGI, and D'Ieteren, grossing over €2M in revenue.
- Oversaw application and platform consolidation, including M&A-driven system integrations across business units.

Client and operational ownership: **Primary contact for key accounts** while running day-to-day operations.

- Owned staffing, budgeting, forecasting, performance evaluations, and promotions.
- Partnered with Product and R&D to ship features on deadline.

Technical Project Manager

Sep 2021 - May 2022

- Oversaw 11 developers across 2 .NET teams, delivering 9 projects.
- Implemented PM best practices that improved delivery efficiency by 20%. Promoted to Managing Director.
- Shipped advanced e-commerce and ad-tech solutions, including Gravity Forms workflows, membership systems, and digital advertising integrations.

Previous Experience:

- **Ananas E-commerce:** *Technical Integrations Consultant, Skopje, N. Macedonia (Jan 2023 - May 2023, 5 months, contract).* Led a team of 5 on integration tools and templates that lifted integration speed and efficiency 20%; migrated 100 merchants to a new e-commerce platform, driving a 15% sales increase.
- **Lidl:** *Project Manager, Sofia, Bulgaria (2020-2021, 1 year).* Led cross-functional initiatives across buying, logistics, and IT with a 90% stakeholder satisfaction rate; optimized vendor contracts and resource allocation across supply chain and store rollout programs.
- **Nike:** *Regional Manager / Brand Manager, Skopje, N. Macedonia (2015-2020, 5 years).* Opened 5 new stores generating \$2M in additional annual revenue and 5% YoY growth for Sport Vision; managed 100 people across 7 cities and lifted store performance 15% with a new manager training program.
